

# SAYAN DAS

Third Year Undergraduate  
Department of Mathematics  
Jadavpur University  
Email: [dassayan0013@gmail.com](mailto:dassayan0013@gmail.com)  
Website: <https://sayan1729.github.io/>  
Mobile: +91 94326 46056

## ACADEMIC INTERESTS

---

Number theory, automorphic forms,  $L$ -functions, representation theory and arithmetic geometry.

## EDUCATION

---

### Jadavpur University

- **B.Sc. Mathematics** with Minors in Statistics and Computer Science. (Sep. 2023 – present)
- Coursework: *Linear algebra, Real analysis, Complex analysis, Group theory, Ring theory, Field theory, General topology, Probability and Markov chain, Metric spaces and differential geometry, Measure theory, Functional analysis, Algebraic topology, Module Theory.*
- NPTEL coursework: *Algebraic number theory, Representation theory of finite groups.*

## ACADEMIC WRITINGS

---

1. **Selberg's Elementary Proof of the Prime Number Theorem.** Internship report. ([link to article](#))

## INTERNSHIPS

---

### Summer Research Intern, Indian Statistical Institute Kolkata.

- Supervisor: **Prof. Satadal Ganguly.** (July 2025)
- Worked through Apostol's *Introduction to Analytic Number Theory*.
- Learnt about the distribution of primes, asymptotic estimates of arithmetic functions.
- Culminated in the internship report "Selberg's Elementary Proof of the Prime Number Theorem".

## VOLUNTEERING

---

### Jadavpur Mathematical Society

Led the Content Team and organised club activities such as weekly problems, the mathematical quiz event "Mathemagician" and integration bee at the annual tech-fest "Srijan" of Jadavpur University.

## ACHIEVEMENTS

---

- Ranked **49 (Other Boards General category)** in Jadavpur University's B.Sc. Maths entrance exam.
- Selected for the 2024 Winter School on CS Theory at IISc Bangalore. (**one of 3 from Jadavpur University**)
- **Course topper** for the NPTEL IISc course *Algebraic number theory* taught by Prof. Mahesh Kakde.

---
